Re: Recommendation for Discovery Day Care of Morrisville

From: Parent of Daniel Riker

Grade: Kindergarten

My son started at Discovery Day Care in Morrisville during their Summer Camp program. Prior to Discovery Daniel had attended other Day Care programs and was having a difficult time in the programs. As a parent I was nervous about Daniel starting another program and not having success but also wanted to make sure he was prepared to enter Kindergarten.

From Day 1, everyone at Discovery was fantastic. The program has engaging activities for the children across a wide variety of ages. The groups are small enough that individualized attention is given. The summer camp program has hands-on trips several times a week and the children are never bored. It is a family owned and operated business which shows because they truly make you and your loved ones feel like you are part of the family.

Daniel is now attending the Kindergarten enrichment program at Discovery. Discovery has bussing to and from 1/2 day Kindergarten in Pennsbury. The 2nd half of Kindergarten is completed at Discovery and the curricula is in alignment with the content being taught in Pennsbury. My son was having trouble with letter recognition based on feedback his Kindergarten teacher provided. I shared this information with Discovery and they helped Daniel master the concept during the Kindergarten enrichment program.

As an educator myself, I highly recommend Discovery Day Care of Morrisville to anyone looking for a day care, K-enrichment or summer camp for their children.

Thank you!

Amy Riker
